

## PRESS RELEASE

# ACROBATICA ENERGY AND ETICA NEL SOLE TOGETHER FOR INDUSTRIAL PHOTOVOLTAICS

**Milan, 8 January 2025** – **Acrobatica Energy**, a subsidiary of **ACROBATICA**, after establishing itself in recent years in the management of **energy efficiency** projects related to the 110% superbonus and the recent entry into the **Residential Photovoltaic** market, takes another step in promoting renewable energy by developing an offer for the **Industrial Photovoltaic** market, choosing **Etica nel Sole** as its partner, a leading company in the sector that has been firmly established in the market since 2008 with over 1,000 projects designed and installed.

*“Just as **ACROBATICA** has achieved high goals by revolutionizing the construction industry in Italy and worldwide, **ACROBATICA ENERGY** aims to be revolutionary in offering photovoltaics for the industrial market with a ‘worry-free’ solution completely carried out by in-house personnel,”* declares Tino Seminara, CEO of the company. *“To achieve this, we have chosen a partner with strong **stability** like **Etica nel Sole**, whose proven technical and design skills, combined with Acrobatica’s execution capabilities, will ensure that companies receive installations capable of maximizing energy and economic benefits.”*

Thus, **VOLTICA INDUSTRIAL** is born, the new **Business Division of Acrobatica Energy engineered by Etica nel Sole**.

Project Management and Technical Office will be entrusted to Etica nel Sole, while commercial development will be conducted by Acrobatica Energy, thanks also to the consolidated presence of the Acrobatica Group in the territory.

*“Confident in our **skills**,”* says Davide Curci, CEO of Etica nel Sole, *“we enthusiastically accepted the challenge that **ACROBATICA ENERGY** presented to us. We are excited about the idea of developing a new entity that will become **the reference point for industrial photovoltaics** throughout the national territory. The stability, strength, and widespread presence of the **ACROBATICA** group guarantee the success of this partnership for **ETICA NEL SOLE**.”*

*“We will be the only company in Italy,”* Seminara continues, *“capable of realizing installations for business clients in any corner of the country using only in-house personnel and ensuring maintenance and monitoring for the entire life of the installation. Our goal is clear and shared: to grow and conquer thousands of clients in the industrial and agricultural sectors in the coming years; clients to whom we will soon also be able to offer maintenance and building renovation services, thus accompanying them in their investment for the next 30 years.”*
