

PRESS RELEASE

EDILIZIACROBATICA FRANCE ARRIVES IN PARIS AND CONSOLIDATES ITS PRESENCE ON THE MARKET

EdiliziAcrobatica France, a company controlled by the Acrobatica Group, the European leader in rope-access external renovations, has made its arrival in Paris, where it aims to become the go-to in the residential renovation market in the French capital.

While the company has been present since 2018 in the main cities of the *Midi* (Perpignan, Marseille, Nîmes, Nice, Toulouse, Lyon and Montpellier), including a branch dedicated to wind turbine maintenance, this new launch will allow it to strengthen and consolidate its presence in a market for which all indicators point towards strong growth.

The choice to open this new location in Paris was guided by a careful analysis of the city's real estate: featuring marked vertical development, it can benefit immensely from the technique fine-tuned by Acrobatica, characterised by minimal invasiveness, speed of execution and sustainability, including in environmental terms.

Vincenzo Polimeni, the Country Manager for France and the Principality of Monaco, remarked "We are sure that in Paris we will once again successfully replicate the operating and business model which has allowed us to spread all throughout the south of France over the course of 7 years, creating employment while simultaneously meeting the needs of growing numbers of clients".

"Paris represents the start of a new chapter for EdiliziAcrobatica", explained Anna Marras, the CEO of EdiliziAcrobatica S.p.A. "It's a challenge that the group is ready to rise to, deploying not just its know-how, but also the strategies for selecting and training personnel that make us stand out, marking us as an international leader in this sector. The business potential offered by the French capital is enormous, particularly in relation to work on renovating and maintaining residential buildings, which is our specialisation. Our acrobatic teams will be able to ensure their upkeep with the same professionalism that they have always brought to every part of the world where their efforts have been needed".

EdiliziAcrobatica S.p.A. is a leading company in the external renovations sector. Founded in Genoa in 1994 by Riccardo Iovino and currently led by Anna Marras, the Group's CEO, the company now employs approximately 3,300 staff and operates in around 175 locations across Italy, France, Spain, Monaco, the Arab Emirates, Saudi Arabia, and Kuwait. The double safety rope technique enables the company to conduct construction activities while ensuring that clients receive efficient, safe, and sustainable services. Listed on the Euronext Growth Milan market since November 2018 and on the Euronext Growth Paris market since February 2019, ACROBATICA has integrated the principles of sustainability into its Business Model, guaranteeing a naturally sustainable service and a responsible approach that targets the well-being and satisfaction of its internal and external stakeholders. In 2022, it obtained an ESG rating that placed it among the lowest-risk companies in its reference cluster.
